COAL UP. BUT THE TRUST GOING DOWN. by any plunderer who believes he has a persisted in making an accension at Desure thing in " getting the swag and get- troit in the face of advice that the wind ting away," the Coal Trust yesterday and weather west shaded another 25 cents per ton to the trip unsafe. Attaining a height of 300 added another 25 cents per ton to the fact she was thrown to the ground and price of coal. When the first raise was feet she was thrown to the ground and made under the Reading deal there was killed. Another sacrifice to recklement se attempt on the part of the monopo. which no State law should allow. lists to make a show of plausible reason for the advance; but they have now got well past the point of offering reasons. the same basis with the Trust witness, for use in the experiments. who told the State Senate Committee, in effect, that "somebody suggested that we tack on 25 cents, and it was done."

view of things to-day. At the same time They may be afraid that he will talk that it was arranging for further extortion through grandfather's hat. from the people yesterday, a body blow was coming straight at the great coal monopoly from New Jersey.

Chancellor McGill rendered an opinion at Trenton yesterday, in which he upholds every point in the people's case against the Reading Deal, which THE WORLD has nously urged since the great combine came into existence. The agreement entered into by the Reading, the Central Railway of New Jersey, the Delaware, ans and Western and the Port Reading Railway is declared by the Chancellor to be a sweeping violation of the isw. By the terms of his decision the about the police handling of the Borden of the big railways by the Port Reading is declared void, and all the compenies concerned are directed to retake possession and operate their own roads independently of each other.

one. It is not likely that it ends the next November. fight, for the coal barons will undoubtedly exercise their right of appeal. But it furnishes most advantageous ground for the popular side in a fight to the finish. to waste no nerve force in worrying waged. Meanwhile, under the Chancellor's decision and the temporary injunenefarious Deal must suspend their com- only a Reading combine could be guilty bined operations or get dragged into of. court for contempt.

The people's cause is here well under way. The plundering coal monopoly

must go. PRECAUTION AND PREPARATION.

Cholers will be kept out of America if the most rigid rules of quarantine and of cases, the man bets best who bets last. sanitary inspection, as applied to steamships and their burdens from foreign shores, can secomplish that end. There is no reason to doubt that these means will suffice to prevent the introduction of the pestilence among us. Hence, the continued assurances of officials and the howl in earnest. They are howling to be press to the people, that there is no cause sent back to Constantinople. for a cholers panie.

But it is the part of wisdom not only evil days, but to prepare to meet them to reception by their friends. the best advantage should they, despite all care, come to pass. Hence the local An acrobatic shark has been seen in health officials have actively taken in Cardenas Bay. It was the sea-scrpent's hand the matter of preparing the city to day off, we suppose. hopefully resist the plague if it shall, dodging all obstructions, reach our shores. A crusade in the interests of \$13, 247, 26.

cleanliness is to be at once put under way, for ejeculiness is one of cholera's most effective foce. Fifthy surroundings and carelessness in regard to personal The people can help the health authorities to rid the city of these sources of peril. They should need no urging to do so.

ALL FOR A MARRIED MAN.

A pretty girl of Great Falls, this State. has killed herself for love of a married man. She could not live without hun, she said. Of course she did not this? said the General. 'A new kind o know him thoroughly. She saw him only in love's perspective, which magnifies virtues and diminishes faults. To her and I am leading the men to water." vision he was perfect; to her fluttering little soul he was the sum of all the joys the other day on his way South. When I first the world could hold. But another had met the Colonel he was a bachelor lawyer at possession of him, and the pretty creature sighed and pined for him, saw no other way of taking the sob out of her throat between Blst and 32d sts., New York

Care for Your Sponges.

Peach Slump Coffee

In the first place they must not only be horoughly washed, but in order to prevent their becoming foul each part of the spongs should be exposed to the mir. Familion women see to it that this tollet article is each which a large lump of soda has been disto himself, "Oh What a Difference in the solved, atterwards boiling it for sixty minutes, when it is rinsed in cold water and given a sun bath until entirely dry. Always rinse all soapy suds from your sponge and thea throw it into your basket, which should be hung just outside the bathroom window. ... sponge cared for in this fashion will never

> Queen Liz Didn't Use Forks. It is difficult for us to realize what a com-

paratively modern invention the table fork is or how our ancestors managed to get along without it. Queen Elizabeth never heard of such an implement and it was many years after her death that the first table or disner" fork was brought to England.

Getting Photographed.

If you have bones in your neck and a clean full light is turned on you they will not show, but if you turn yourself in shadow in hopes of hiding them, the ugly things will become the most prominent features of the picture That is one secret for girls who would love to be taken in evening dress, but don't dare. The simpler the frock worn the better. Plain straight folds can be handled more attractively, and, by the way, the idea of dark gowns for photographs is obsolete. Contrasting backgrounds are not often necessary One of the most successful pictures seen at a recent photographic artists' meeting was that of a tall girl in a soft, clinging white gown against a dead white ground. The effect was ideal and created a sensation.

Enlarging the Bust.

No better method for enlarging the bust can be found than a systematic souse of cold water treatment. Morning and night bathe and rub dry with Turkish glove or towel, after which massage with cocoanut or oil of vaseline. Rub spherically.

Indian Pudding.

Take one quart of sweet whole thoroughly and bake one hour in deep dish. To be easen either hot or cold.

The Dancing Egg.

Place a hard-boiled egg upon the under side of a smooth, but dull-not polished-tray. Move the tray around and around horizont ally, gradually increasing in speed. The egg resting in the middle of the tray, is carried around by the movement, and gradually begins to revolve on its own axis, faster and faster, till at last it is seen to rise on end and spin away exactly as a top would do.

in all experiments involving egg balancing keep the egg upright in the saucepan while it

To set the egg spinning as described mands practice, not to mention some benefit of those that are ambitious to succeed table, letting it project so ar over the edge as to be readily and rapidly grasped by the hand. Place the egg in the middle, and with the thumb of the left and the first inger of the right hand placed at opposite ends set li vigorously spinning. It will immediately rise on end, still spinning.
Quickly seize the tray and you will thes

have nothing to do but to keep the egg still The "fete bodice," which is cut low and rotating, which is a very easy matter. are welded into great rings around the necks square in the neck and is sleeveless, has beof the wives. Many of these rings worn by come the especial property of well-moulded cles, but in the reverse direction to that is
the women whose husbands are well to do great though scrawny necks and arms find which the egg revolves.
